

Scurion®

Scurion® OL-basic – optimized for orienteering / running

Latest LED-technology

made in Switzerland 

Fully programmable to user's preferences:

Always the right light on hand, no matter in what environment you run (forest, open field, ...).

Scurion® -light distribution allows you to search your way in the distance and to read your map easily in parallel.

Power of a car headlight not only for minutes but **for hours** if you desire.

The lamp is **astonishingly lightweight** because we use the latest li-ion battery technology.

... see more in the dark!

Lamp features:

- **new: measured 500 ANSI Lumen - 250 Lm spot and wide angle**
- constant current regulated brightness (independent on battery voltage)
- microprocessor control for Li-Ion power reduction
- bar display for remaining battery capacity
- completely nonmagnetic - no magnetic switch disturbing your compass
- available in several colors!

Battery:

- LG[®] 4-cell Li-Ion battery with **7000 mAh/7.2V**
- **50 Wh capacity**
- Assembled in Germany
- protection circuit for safe operation

NEW

Head straps:

- **ergonomical "orienteeing"** head strap
- modular system with different cable lengths
- also available: basic but versatile "outdoor" head strap

Charger:

- industry quality Mascot[™] charger
- max. 6h charging time, fully automatic operation
- sophisticated charge algorithm for maximum battery lifetime

Runtimes:

Spot	Wide Angle				
	4	3	2	1	0
4	7.2 h	11.1 h	13.2 h	14.2 h	15.1 h
3	11.1 h	22.0 h	29 h	35 h	42 h
2	13.2 h	29 h	53 h	70 h	105 h
1	14.2 h	35 h	70 h	105 h	210 h
0	15.1 h	42 h	105 h	210 h	-

Values of one 6.8 Ah-battery; white = measured; blue = calculated
